# Bespoke Oak Boxes - Enquire

# Bespoke Steel Boxes - Enquire

Graphics - Get your message across in a way that compliments your box and increases donations

We offer a very competitive in house design and print service

**Security** - For those of us who don't have two Grenadier Guards to protect their boxes we have to be realistic and judge what level of security is required in your venue.

All of our prices include weighted bases and an "anti dipping" deflector under the donation slot.

Our steel doors are 3mm thick or constructed in a way to maximise the materials strength.

We can supply 100db Yale alarms and stainless steel hoops, chain and padlock to stop them being tampered with or removed.

We can't beat them but we can make it as awkward as possible.

Please call to discuss options and your individual requirements.
